Stories and snapshots

PIDC featured in ISU extension videos.

Ed Zaworski (right), an extension program specialist in the Plant and Insect Diagnostic Clinic (PIDC), was recently featured in two ISU extension videos, titled “Sampling for seedling disease” and “Collecting tip and needle blight samples”.

The whole PIDC team, including Drs. Laura Jesse and Lina Rodriguez-Salamanca, also were featured in another video, “What happens to a sample at the Plant and Insect Diagnostic Clinic”.

Dr. John Dunleavy dies at 92.

John Melvin Dunleavy passed away on May 19th, 2016. Dr. Dunleavy was a World War II veteran and received his doctorate at ISU in plant pathology. He was a longtime faculty member at ISU and a researcher with the USDA studying soybeans. Click here for the obituary in the Ames Tribune.

ISU grad students win travel awards

Hafizi Rosli (left), Bridget Janssen (center), and Mohsin Ramay (right) receiving travel awards at the APS North Central meeting held in Roseville, MN from June 5th-7th. They are all PhD students in the PLPM department.

Dr. Gwyn Beattie giving a talk titled “Advancing agriculture through the lens of a phytobiome perspective” at the APS North Central meeting this month.

Jared Jensen (left), Renan Kobayashi-Leonel (middle), and Dr. Alison Robertson (right) at the APS North Central meeting this month.
